PROJECTS

- **Small Community Business**
STARTEASE is a platform designed to support small business communities. Our website facilitates startup enthusiasts by offering a Q&A section for queries related to starting a company. We provide motivational videos to inspire and offer investment ideas based on individual salaries. The website includes a feedback form, a search feature for problem-solving, sign-up functionality, contact information, and details about our services. STARTEASE aims to empower and guide aspiring entrepreneurs on their startup journey.
Key Skills: Python, HTML, CSS, PHP, MySQL, Flask
- **Full Featured Web App**
Developed a comprehensive web application using Python Django framework, featuring a blog-style platform for users to create, update, and delete posts. Implemented secure authentication, user profile management, and password reset functionality. Designed an intuitive interface allowing users to view and interact with posts seamlessly.
Key Skills: Python, HTML, CSS, Django

- **Mobile App SignUp Flow in UI/UX**

Developed an intuitive coffee shop mobile app with a seamless sign-in flow, offering options for quick access via mobile number, email, or password. Implemented a user-friendly sign-up process for new customers, and a secure password recovery option for forgetful users, enhancing overall user experience. Designed using Adobe XD for optimal UI/UX.
Tool: Adobe XD

- **Restaurant Menu Card in UI/UX**

Designed and developed a restaurant menu card app using Adobe XD, featuring a user-friendly interface for ordering burgers and sandwiches. Implemented secure sign-in/up, a dynamic menu card, and streamlined order processing. Enhanced customer engagement by integrating social media platforms for reviews and feedback.
Tool: Adobe XD

- **Email Advertisement Shopping Template in UI/UX**

Created an email advertising shopping template for a fashion eCommerce website, showcasing clothing, dresses, and jewelry collections. The template serves as a dynamic promotional tool to entice customers to explore and shop the latest fashion offerings on the website.
Tool: Figma

CERTIFICATION

- Python Programming
- UI/UX Designer

INTERNSHIPS

- **UI/UX Designer**

Completed UI/UX virtual internship at CodSoft, Contributing to the creation of visually appealing and user-friendly web interfaces.

- **Python Programming**

Completed Python programming virtual internship at CodSoft, gaining practical experience and contributing to collaborative projects.
